Objectives of the Event:

- 1) To create awareness of the intricacies of patents, understand their significance in innovation, and protect ideas.
- 2) To explain the concept of intellectual property and the various forms of intellectual property rights.

- 3) To provide detail information about different types of IPRs, such as Patents, Designs, Trademarks, Geographical Indications, and Copyrights.

Description of Event:

The Research Cell organized a workshop on Intellectual Property Rights (IPRs) & IP Management for Startup in association with the Institution's Innovation Council (IIC) of SIT Nagpur on 15th April 2024 for faculty members and students. This workshop was conducted with the aim of enlightening participants about the significance and intricacies of intellectual property protection. The workshop covered topics such as patents, trademarks, copyrights, and trade secrets, equipping attendees with valuable knowledge to safeguard their intellectual assets and navigate the legal landscape of intellectual property. Through interactive sessions and case studies, participants gained practical insights into leveraging intellectual property rights to foster innovation and competitiveness in today's dynamic business environment. This workshop is designed to empower entrepreneurs, researchers, and innovators with a comprehensive understanding of Intellectual Property Rights and how to manage IP within a startup environment. The program will cover the importance of IP management, its relevance for startups, and the process of obtaining patents. Explore various forms of intellectual property rights. Understand the legal frameworks and protections available for different types of IP. Learning about the steps involved in filing a patent and the considerations for patent strategy.
