**SECTION B: Event Report and Reflection**

**Objectives of the Event:**

- 1) To showcase skills and knowledge.
- 2) People can meet to discuss questions, brainstorm ideas, identify problems, make decisions, and develop solutions.

**Description of Event:**

The Research Cell of SIT Nagpur has organized a Workshop on Prototype/Process Design and Development is an educational event aimed at providing a comprehensive understanding of the prototyping phase within the product development process. The workshops are usually conducted in an interactive format, including presentations to engage the participants actively. This workshop plays a crucial role in bridging the gap between theoretical knowledge and practical application. Exploring the fundamentals of creating effective prototypes and refining development processes. Empowering innovation through hands-on learning and practical insights. Let's embark on a journey to enhance your prototyping and process design skills. The resource person for this workshop was Dr Sudhanshu Maurya, who was in charge of the research cell and associate professor at SIT Nagpur.

**Details of Achieved Outcomes:**

The Workshop on Prototype/Process Design and Development for faculty members seems to be a significant event aimed at enhancing the skills and knowledge of educators in the areas of prototyping and process design. Understanding the process of product/process development, gaining knowledge about industry standards and regulations, and receiving information on prototype development. These workshops typically aim to provide faculty members with practical knowledge and hands-on experience in prototype and process design, which are crucial for innovation and development in various fields. This workshop was held by Dr. Sudhanshu Maurya, the Incharge of the Research Cell and Associate Professor at SIT Nagpur.
